

Project Design Phase-II Data Flow Diagram & User Stories

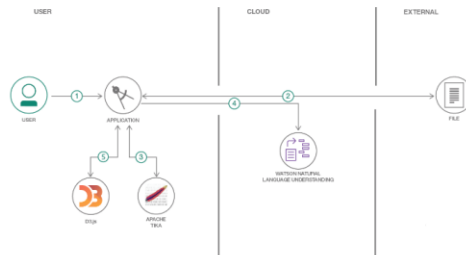

Date	07 Jul 2026
Project Name	SHOPEZ E-commerce Application
Maximum Marks	4 Marks

Data Flow Diagrams:

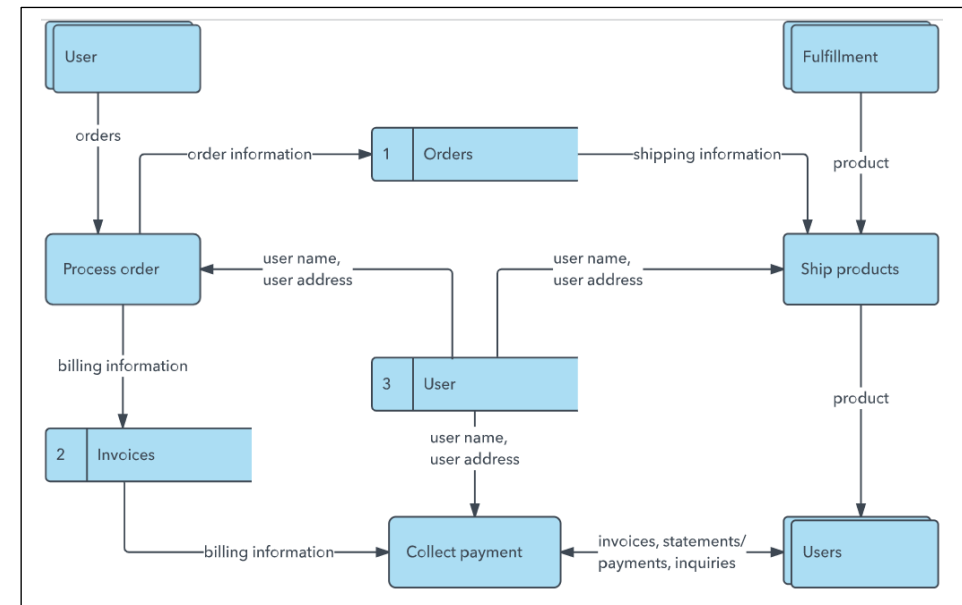

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: (Simplified)

Flow

1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
2. User selects data file to process and load.
3. Apache Tika extracts text from the data file.
4. Extracted text is passed to Watson NLU for enrichment.
5. Enriched data is visualized in the UI using the D3.js library.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Mobile user)	Registration	USN-1	As a user, I can register for the application by entering my email, password, and confirming my password.	User account is created successfully and redirected to the login page.	High	Sprint-1
Customer (Web User)	Registration	USN-2	As a user, I can receive a successful registration confirmation message.	Confirmation message is displayed after registration.	High	Sprint-1
Customer (Web User)	Login	USN-3	As a user, I can log in using my email and password.	User is redirected to the home page after successful login.	Low	Sprint-1
Customer (Web User)	Authentication	USN-4	As a user, I can securely log out of the application.	User session ends and returns to the login page.	Medium	Sprint-2
Customer (Web User)	Product Catalog	USN-5	As a user, I can browse all available products.	Products are displayed correctly on the home page.	High	Sprint-2
Customer (Web User)	Product Search	USN-6	As a user, I can search for products using keywords.	Matching products are displayed instantly.	High	Sprint-2
Customer (Web user)	Product Details	USN-7	As a user, I can view detailed information about a selected product.	Product details page opens with complete information.	High	Sprint-2
Customer (Web user)	Wishlist	USN-8	As a user, I can add products to my wishlist.	Selected products are added to the wishlist successfully	Medium	Sprint-3
Customer (Web user)	Wishlist	USN-9	As a user, I can remove products from my wishlist.	Product is removed from the wishlist successfully.	Medium	Sprint-3
Customer (Web user)	Shopping Cart	USN-10	As a user, I can add products to my shopping cart.	Product appears in the cart with correct quantity.	High	Sprint-3
Customer (Web user)	Shopping Cart	USN-11	As a user, I can update or remove products from my cart.	Cart is updated immediately with correct total price.	High	Sprint-3
Customer (Web user)	Orders	USN-12	As a user, I can place an order successfully.	Order is saved and confirmation is displayed.	High	Sprint-4
Customer (Web user)	Order History	USN-13	As a user, I can view all my previous orders.	Order history page displays all completed orders and track orders.	High	Sprint-4

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Web user)	Responsive Design	USN-14	As a user, I can access the application on desktop and mobile devices.	All pages render correctly on different screen sizes.	Medium	Sprint-4
Customer (Web User)	Error Handling	USN-15	As a user, I receive appropriate error messages when invalid actions occur.	Clear validation and error messages are displayed.	Medium	Sprint-4
Administrator	Product Management	USN-16	As an administrator, I can add new products to the catalog.	New product is stored in the database and displayed to users.	High	Sprint-4
Administrator	Product Management	USN-17	As an administrator, I can edit or delete products.	Product changes are updated successfully in the application.	High	Sprint-4
